New York October 8th 1858

E. the Ambassador reached me on the 6th instant. the District Attorney - it was proposed by the latter to destroy the property - but I objected to this, without first obtaining the wishes of the Sublime Porte concerning it. - and His Honor the Mayor coincided with me - remarking, that as an act of courtesy to the Turkish Government they ought to comply with my wishes - which was done - and the whole of the Plates & Seals, and Caimes, were sealed up with the seal of this Consulate - and placed in the Vault of one of the Banks here for safe keeping, until orders shall arrive from Your Excellency, in regard to their disposal - The Prince Hanison bears a good character in this city - and has declared his innocence of any intention to defraud or wrong any one - that he printed them openly, that he did not secrete the Plates and Seals - and has always believed they were "labels," for some article of Merchandize - that Madame Sivasti so assured him, and he printed them as he would any other matter, and charged her for it the regular price - that she now owes him $300. (dollars) on account of the work - and his actions, and other circumstances, tend to confirm his assertions - though I think there is some circumstantial evidence, that he knew they could not be "labels", or that he was very stupid, not to suspect, from certain things, that all was not right concerning it. -

As I had no evidence, more than the Hon Mayor had - His Honor decided, after consulting with the District Attorney - to discharge Harrison, as he had given up all the utensils, & means of making the Caimes - and the Officers of the Police could find no more - He was no doubt deceived by the woman, and the means of making the counterfeit money are taken away, and subject to Y. Excellency's Orders, which I shall be happy to receive and execute -

I beg to avail of this occasion to observe, that many of the largest Banks in this country who issue paper money, have adopted the new and very valuable patent of Dr. C. D. Seropyan of Constantinople - which perfectly secures their Bills or Caimes from being counterfeited, and I would respectfully commend this means of security, to the Imperial Government, for its consideration and adoption -

In the hope, that my official action in this matter, will meet the approval of the Sublime Porte - I have the honor to be

Your Excellency's

Most obedient Servant

J. Hosford Smith -

Consul

The Caime enclosed, is one that was seized -
